EXCIPIENTS AND RAW MATERIALS
FOR PHARMACEUTICAL AND BIOPHARMACEUTICAL PRODUCTION

The background is a dark, monochromatic composition. The top portion features several overlapping, angular, geometric shapes in various shades of dark grey and black, creating a sense of depth and shadow. Below this, a grid of thin, light grey lines is visible, which appears to be a perspective view of a floor or a wall, receding into the distance. The overall aesthetic is minimalist and architectural.

EXCIPIENTS AND RAW MATERIALS
FOR PHARMACEUTICAL AND BIOPHARMACEUTICAL PRODUCTION

The background is a dark, monochromatic composition. The top portion features several large, overlapping geometric shapes in shades of dark grey and black, creating a sense of depth and shadow. Below this, a faint grid pattern is visible, consisting of thin, light-colored lines that form a series of squares. The overall aesthetic is modern and architectural.

Vice General Manager and Division Operations Director

Partners for pharmaceutical production quality

Since the beginning, PanReac AppliChem has played an important role in the pharmaceutical and biopharmaceutical industries, producing and supplying the best raw materials to be used in manufacturing process or as excipients in the final formulation.

Being quality and reliability essential requirement of pharmaceutical and biopharmaceutical industries,

We offer products and documentation fitting this need

Highly demanding quality control

More than specifications, It is attitude. It is quality in our processes. PanReac AppliChem has an integrated management system implemented in all activities relevant to the following standards.

**ISO
9001:2008**
Quality Management

**ISO
14001:2004**
Environmental Protection

**OHSAS
18001:2007**
Occupational Health and
Safety Management

**IPEC/PQG
GMP Guide**
for pharmaceutical excipients

Our Quality Control Laboratories, fitted with the latest technologies, analyse and guarantee your products comply with the specifications of Pharmacopeia. From raw materials to final products, we ensure our products are safe across the entire value chain.

The technical data sheets, safety data sheets and certificates of analysis for all our products are available on our websites

Our products meet the specifications defined in the latest version of USP and Ph. Eur., among other pharmacopeias. As part of the final drug, excipient plays a key role in risk control. Hence, the IPEC-PQG guide for Pharmaceutical Excipients was adopted in 2011.

For registering the product,

PanReac AppliChem **delivers a file following the international CTD format**

This file contains all information required in the ICH module 3. These include regulatory certificates, manufacturing and analytical procedures.
